

Ignite Training Programme Applicant Information Pack

Landmark Theatres Ignite Training Programme is a development opportunity for young creatives based in the East of England to work with in house specialists and professional theatre organisations to further their creative practice and build a close relationship with our Peterborough theatres (Key Theatre & New Theatre).

Successful applicants will receive a one year creative attachment to Landmark Theatres and the majority of the work will be based and delivered at the Key Theatre.

The Programme

The first 8 weeks will consist of hands-on workshops from specialist creatives working around the country. From lighting designers to set designers, movement directors, accessible theatre consultants and more. This is to give participants an understanding of all the components that go into making a show and also a chance to see if any of these forms are of interest to you.

For the rest of the programme, the collective will work to devise a piece that will be shown at the Key Theatre in November 2025.

Successful applicants will be expected to work with one another for this opportunity.
